

Karnataka Abrasives

Manufacturer and Exporter of Grinding Wheels An ISO 9001-2015 Company

INTRODUCTION

Our company established in 2009 is specialized in production of full line of Resin Bonded Grinding Wheels. Location in Belgaum our company is one of important manufacturers of Resin Bonded Grinding wheels in Karnataka state. Having very high hardness abrasive the materials have many applications in processing the materials. These abrasives are long lasting even at very high speeds and have significant cost control impact in the processing of steel materials.

Our company is approved with 9001: 2015 ISO certified Company we have excellent quality control system, prompt delivery and most importantly the strong sense of full support to the customer we have built excellent reputation with our clients as we have sophisticated machinery and we adopt modern manufacturing techniques with quality control at every phase in the process of manufacturing Karnataka Abrasives have successfully developed abrasives which are competitive and on par with high quality imported products , resulting in considerable saving of foreign exchange . All this has made it possible that our company developed rapidly year after year.

Further, we have started one more unit of **Santosh Abrasives Pvt Ltd** in 2009 Products and services are backed by the commitment to quality as a part of our ISO 9001:2015 Quality system registration. We give you peace of mind, you knowing that our products will meet or exceed your expectation every time.

Lastly we sincerely hope, we will have an opportunity to maintain excellent relation with our customers and succeed on every front.
